

March 30, 2020

Dear Cooperative Education Student:

We all trust that you and your families are doing well during these uncertain and unprecedented times.

We want to give you an update about your coop course. In light of the extension of the school shutdown, we want you to know that you will be able to complete this semester's coop credit(s), albeit through a different learning plan that does not include further community placements at this time. (There are a few students who have virtual placements who will be able to continue.) We are working to fine-tune on-line learning opportunities for you that will allow you to fulfill the expectations for your coop course.

During this week I will be contacting you about next steps with coop learning. Please let me know if you have any questions or need any assistance.

Thank you,

Mr. Lars Bruschke
