

# ARTS AND CULTURE

## **Arts and Culture SHSM**

The Specialist High Skills Major (SHSM) in Arts and Culture allows students to focus their studies on the creative sector while earning credits toward their Ontario Secondary School Diploma. Through specialized courses, certifications, workshops, and hands-on experiences, students develop artistic, technical, and leadership skills that prepare them for postsecondary education, apprenticeships, or careers in the arts. This program connects classroom learning with real-world opportunities in visual arts, design, media, performance, and cultural industries.
