

## Ontario University Fall 2020 Info Sheet

### Offers:

Offers are continuing to roll out to applicants. OUAC is confident all offers will be out by the May 27<sup>th</sup> deadline. They are using the same format as in past years, using final Semester 1 marks and midterm marks from Semester 2. Universities are mindful of the unique situation we are all in and are taking that into consideration for those offers.

Remember you must confirm an offer by the June 1<sup>st</sup> deadline.

### Entrance Scholarships:

Universities are using the same format as in past years in awarding entrance scholarships. You should reference each university's website to see the criteria for their respective benchmarks. In many cases, final decisions are based upon final marks from 6 Grade 12 U/M credits. Sometimes universities have made a scholarship offer with their early offer and that will stand if you meet their requirements. In the past, if your final average was higher and it pushed you into another scholarship level, universities will offer you the higher scholarship amount.

### Deferral process:

Some of you are considering deferring your offer and starting in the fall 2021. That is an option that some universities do provide. **YOU MUST ACCEPT YOUR OFFER** by June 1<sup>st</sup>. After accepting your offer, you submit a deferral request to that specific university. You must look for this information on the specific university's website. Be mindful of due dates for this, and be aware that each university will vary in terms of their deferral policy.

### Your Potential Fall Start:

Universities are working on multiple plans because of the many uncertainties. Rest assured they are going to provide the most awesome start for their first year's students. Items such as first year residence, how your classes will look, deposits for residence, and everything else will be communicated directly with confirmed applicants and on the University website. We encourage you to keep checking your emails for ongoing information.

### So....

- Check your OUAC Application Site for offers;
- Confirm offers by the June 1<sup>st</sup> deadline;
- Be mindful of residence applications due dates;
- Stay informed to the ongoing changes and information.
